BAUGH'S

RAW BONE PHOSPHATE THE APPLICATION OF BONE PHOSPHATE HAS always been beneficial—the only difficulty being to obtain a genuine article. Before offering BAUGH'S PHOSPHATE on the market the last season, I submitted for analysis to Professor Shepard, of the South Carolina Medical College, who fully endorsed it, and his opinion has now been verified by actual experiment by our own Plasters, whose testimony I have of the nature of this Phosphate, especially in the culture of Cotton, in improving good plant. PHILADELPHIA UNIVERSITY OF MEDICINE AND SURGERY.

Organized, 1848—Chartered by the Legislature, Feb. 26, 1850. Amendments to Charter, Feb. 15, 1860, and March 15, 1865. TWO FULL SESSIONS OF LECTURES EACH YEAR, commencing the first of October, and continuing until April. The Dissecting Rooms are open, and private lectures and quizzes continued during the entire year. The first session commences under Christmas, or for three months; the second until the first of April, or for three months; the two constituting one full course of lectures. Examinations of candidates for graduation will occur at the end of each session. Requisites for Graduation.—The requisites for graduation are three sessions of lectures, and three years study; or four sessions, including two years spent at the University. The System of Medicine Taught.—The University is a liberal medical school, in which all branches of medicine and surgery are taught, including the preparatory studies, without regard to any sectarian views. Hence, while they denounce the exclusiveness of Allopathy, Homoeopathy, Eclectic, Hydropathy, &c., they have adopted all principles of cure and therapeutical agents should be taught in all well-regulated medical schools, and that every intelligent, honest and thorough practitioner, entitled to all the courtesies and privileges of the profession, without regard to his peculiar notions in therapeutics. Fees.—The fees for all branches, including all the tickets, matriculation, and dissection, are \$50 a session, and \$100 for the entire course. Those who purchase tickets only have the privilege of attending one or more sessions, and may, including demonstrator's fees, or \$115 for a full course. To aid young men of moderate means, the University has issued five hundred shares of stock, each for one share and a half, at \$20 each, constituting the holder a member, with all the rights and privileges of the University, and all the teachings of the school. The only dissection fees are a yearly dissecting and matriculating ticket, each of which is \$5. The advantages of Scholarship.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the institution at frequent intervals as he wishes. It requires no previous residence, or study to enter the University on scholarships, hence all private tuition fees are saved; by holding scholarships, can prosecute other business a part of the time. The candidate for graduation can present himself at any time, and receive his degree as soon as qualified. In case a student should hold a scholarship and be unable to attend lectures, it can be transferred to another, thus preventing any loss. Parents, guardians or friends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men by the purchase of scholarships, and thus enabling them to obtain an honorable profession. THE REGULAR FACULTY. JAMES MCCLINTOCK, A. M., M. D., Professor of the Principles and Practice of Surgery. WM. PAINE, M. D., Professor of the Principles and Practice of Medicine. C. S. GAUDET, A. M., M. D., Professor of Chemistry, Pharmacy and Toxicology. E. B. PALMER, A. M., M. D., Professor of Physiology. H. J. DOUGLASS, A. M., M. D., Professor of Materia Medica and Therapeutics. A. R. THOMAS, M.
